

About SVKM's BNCP

SVKM's Dr. Bhanuben Nanavati College of Pharmacy is one of the topmost Pharmacy Institutes in the State of Maharashtra situated at Vile Parle (West), Mumbai. The college conducts B. Pharm, M. Pharm (with specializations in Pharmaceutics, Quality Assurance and Pharmacology) and Ph. D. Courses.

The B. Pharm. Programme of the college is accredited by NBA for 5 years (2017-2022). The college is ranked 42nd in All India Pharmacy Colleges by NIRF Ranking, 2017. We have received the AICTE-CII award for Best Industry-linked Pharmacy institute for the year 2015 and Platinum Category as per 2016 Survey. The institute has won the Best College trophy Six times in a row at the Rx Festival, an intercollegiate competition (technical and nontechnical events) organized by IPA-MSB. Since its genesis in 2004, the college has grown and achieved success in academic and extra-academic activities.

The college has strategically planned curriculum and activities that match with its vision of being recognised as a top institute of pharmaceutical sciences in the country which develops professionally competent and socially sensitive individuals who cater to the needs of higher pharmacy education, research and industry. BNCP has identified gaps in the curriculum and has taken the initiative of offering Add-on courses to its students that contribute to skill enhancement and increases their employability.

Science & Engineering Research Board
Department of Science & Technology,
Government of India

Indian Council of Medical Research

Human Resource Development Group
Council of Scientific & Industrial Research

* B. Pharm. Programme Accredited by NBA for 5 years (2017-2022)

* Ranked 42nd in All India Pharmacy Colleges by NIRF, MHRD,
Government of India Rankings 2017

Best Industry-Linked Pharmacy College (Degree) Award by
AICTE-CII Survey 2015

Objectives of the conference

The prevalence of neurodegenerative disorders such as Alzheimer's disease and Parkinson's disease is increasing, but effective treatments are lacking. Researchers have revealed many parallels among this diverse group of disorders, including protein aggregation and mitochondrial dysfunction. It is hoped that greater understanding of these processes and their role in disease will lead to new treatments. The objectives of this conference are:

- Create awareness of the occurrence and complexity of neurodegenerative disorders.
- Deliberate on the current therapeutic regimens in managing neurodegenerative disorders.
- Drug discovery, synthesis of NCEs, molecular biology and biomarkers in neurodegenerative diseases.
- Sensitization to new therapeutic strategies and research insight and palliative care of patients suffering from these diseases.
- Networking with peers and seniors to pursue research in this direction.
- Provide a forum for amalgamation of peerless speakers, Keynote speakers, well-known researchers and delegates who enlightened the delegates with their enviable research knowledge and on various topics related to the field of Drug discovery and delivery in the management of Neurodegenerative diseases.

Why to attend the conference?

As an outcome of this conference we hope to stimulate the audience with the recent advances in the field of drug discovery and drug targeting in neurodegenerative diseases. We hope to garner an impressive group of 12-15 distinguished speakers who look forward to sharing their knowledge, research strategies and expertise with all attendees.

Who can attend ?

- Faculty & Students of Pharmaceutical Sciences, Basic Sciences, and Life Sciences.
- Industry Representatives

Distinguished Speakers

- **Dr. Ashok Vaidya**, MRC-KHC, Mumbai
- **Dr. Ramesh Goyal**, DIP SAR, New Delhi
- **Dr. Shrinivas Kulkarni**, Emeritus Professor of Pharmacology & Former Pro-Vice Chancellor (DUI)(PU)
- **Dr. Bishwajit Kundu** IIT, New Delhi
- **Dr. Samir Maji**, IIT Bombay, Mumbai
- **Dr. Sukhinder Kaur Cheema**, Memorial University of Newfoundland, Canada
- **Dr. Padma Devarajan**, ICT, Mumbai
- **Dr. Aurnab Ghose**, IISER, Pune
- **Dr. Vidita Vaidya**, TIFR, Mumbai
- **Dr. Sarika Gupta**, NII, New Delhi
- **Dr. Sandhya Kaushika**, TIFR, Mumbai

Abstract Submission

Abstracts are invited for Oral/ Poster presentation. Kindly submit abstracts related to the theme of conference to the Scientific Committee, Email: bncp.conference@gmail.com. (Abstract: Max. 250 words in MS Word 12 font or PDF format). **Last date for abstract submission:** 20th July, 2017.

Publishing Partner- JOAPR

The delegates can submit full research/review manuscript of the abstracts submitted in Journal of Applied Pharmaceutical Research (JOAPR) subject to acceptance after peer review.

Registration Fees

	On or before 20th July, 2017 (in INR)	Spot registration (in INR)
Faculty	1500.00	2000.00
Students	750.00	1000.00
Industry Delegates	3000.00	4000.00

Mode of payment: Cheque or Demand Draft drawn in favor of "Dr. Bhanuben Nanavati College of Pharmacy" payable at Mumbai.

DST-SERB, ICMR & CSIR Sponsored

Three Days National Conference on
Neurodegenerative diseases: Strategies of drug discovery and delivery to the brain
July 27-29, 2017- A Summary Report

This National level conference on Neurodegenerative diseases: Strategies of drug discovery and delivery to the brain was planned with the following objectives in mind:

- To sensitize the young scientists (students and faculty engaged in pharmacy, life sciences and biotechnology) to the alarming increase in neurodegenerative diseases.
- To increase their awareness about neurodegenerative diseases in terms of statistics, causes and prevention and therapeutic intervention strategies in neurodegenerative diseases.
- To impress the need for research initiatives at a mega scale in academic institutes.
- To provide a platform for discussion with eminent scientists and clinicians in the field so that they get the feel of research opportunities available for follow up.
- To inculcate and encourage a research mindset and provide a platform for students to present their case studies and research in the field of neurodegenerative diseases.
- To promote interaction and networking with peers and seniors from academia and industry.

As I write this report I think we managed to touch and impress upon the delegates on each of the points mentioned above by way of high quality research talks from the eminent speakers. We received funding from DST-SERB (Rs. 1,00, 000/-), CSIR (Rs. 40,000/-) and ICMR (Rs. 40,000/-). We acknowledge the financial support rendered by these funding agencies without which it would have been difficult to organize this three scientific event successfully. The months of May and June witnessed extensive preparation work by the Local Organizing Committee members along with their regular undergraduate and postgraduate teaching load of theory and laboratory classes. A lot of effort was put in for selecting the Speakers for this conference as well as for selecting the Chief Guest. Eventually we managed to put together a scientifically rich combination of the above thus paving the way for an intellectually stimulating experience of the two days. We received an impressive number of registrations from the student and faculty members about 190 and a good number of delegates presenting papers on neurodegenerative diseases (about 60 poster presentations and 10 oral presentations).

Web: www.bnnp.ac.in

The conference proceedings began with the inauguration ceremony and addresses by the Chief Guest, Dr. Ashok Vaidya, Director, Kasturba Health Society, Medical Research Centre, Mumbai. His address emphasized the challenges and opportunities in Reverse pharmaceuticals as they apply to neurodegenerative diseases.

The Conference schedule comprised of four lecture sessions per day by eminent scientists coming from reputed and renowned institutes across the country to present and share their work with the delegates. The speakers included Dr. Aurnab Ghose, IISER, Pune, Dr. Sarika Gupta, NII, New Delhi, Dr. Padma Devarajan, ICT Mumbai, Dr. Samir Maji, IIT Bombay, Dr. Shrinivas Kulkarni, *Emeritus Professor of Pharmacology & Former Pro-Vice Chancellor (DUI)(PU)*, Dr. Vandana Patravale, Professor, ICT Mumbai, Dr. Sukhinder Kaur Cheema, Professor, Memorial University, St. John's, Newfoundland, Canada, Dr. Evans Coutinho, Professor, BCP, Mumbai, Dr. Bishwajit Kundu, IIT, Delhi, Dr. Sandhya Koushika and *Dr. Vidita Vaidya*, TIFR, Mumbai

All the sessions were well received and most of them were very interactive in nature thus facilitating a good question and answer session post completion of the talk. Apart from the plenary lectures, we saw good papers in the category of Young Scientists oral presentations. There was a panel of three judges for selection of two best oral paper awards. The poster viewing and evaluation session was scheduled during the lunch break and the posters were put up for the entire day. Here again we had a panel of three judges for selection of two best poster awards for two days of the conference. There was a tremendous zeal amongst the student delegates for competing for these awards and this led them to excel in their efforts. The three days of conference was witness to some fantastic discussions and deliberations on basic neurobiology, neuronal networks and traffic jams, amyloid interaction network and designing structure-based anti-amyloidogenic biomolecules and drug discovery and medicinal chemistry approaches across the versatile frontiers of neurodegenerative diseases. It left the audience with some thought provoking questions and also kindled their interest towards doing good science in a collaborative manner and re-emphasized the importance of innovation in alleviation of diseases and maintenance of good health.

Conference delegates in the auditorium

This Conference concluded with the inputs from the Jury panel to the participants followed by the Prize Distribution ceremony. A review of the feedback forms indicated that the Conference was highly appreciated by the delegates and the speaker talks covering a range of paradigms and projects addressing neurodegenerative diseases gave them a very comprehensive overview and sensitized them to the kind of research work going on across a spectrum of research labs in our country. They enjoyed their first stint of attending a national level conference and getting to listen to a galaxy of wonderful scientists share their research endeavors.
